SOCIALTRADERS

www.socialtraders.com.au

At Social Traders we help viable social enterprise ideas find their way to the resources, support and markets to help them get off the ground and become sustainable. We aim to create a lively Australian community of social enterprises that can learn, share, develop and grow together.

Social Traders is a small nonprofit organisation established in 2008 to support and encourage the establishment of commercially viable social enterprises throughout Australia.

A social enterprise is led by an economic, social, cultural or environmental mission with demonstrable public or community benefit. It trades to fulfil its mission, derives a substantial portion of its income from trade, and reinvests the majority of its profits to fulfil its mission
