# Find the good in business

## The world is changing

Customers, investors and employees now expect organisations to deliver profit and purpose.

- 76% of leaders expect their organisation's investment in social value initiatives to rise over the next 12 months<sup>1</sup>.
- 94% of CFOs believe social will be an important priority in 2030<sup>2</sup>.
- Over 60% base their purchasing behaviours on sustainability and ethical criteria, and this is growing by 10% each year<sup>3</sup>.

Organisations have the power to generate social value, not just profit.

Driving social performance is an opportunity to innovate, get a competitive advantage and create long-term value.

Social performance covers all the impacts of your business on people – staff, suppliers, customers, communities.

# We focus on three core areas to enhance your organisation's social performance.

## **Delivering ESG: Social value in business**

We provide training and expertise to deliver the “Social” in ESG. Develop and implement best practice, set targets and get reporting, plus scope and address human rights/modern slavery compliance requirements with our support.

## **Supplier diversity and social procurement:**

Access Australia's largest database of certified social enterprises to not only get goods/services but impact at the same time.

## **Fair and inclusive workplace:**

Develop and implement strategies to boost employee engagement and belonging. Learn from certified social enterprises specialising in areas like neurodiversity, gender equity, diversity and more.
